

BioCircuit Technologies Named to the 2025 Inc. 5000 List of America's Fastest-Growing Private Companies

ATLANTA, August 13, 2025 – BioCircuit Technologies has been named to the 2025 **Inc. 5000** list, recognizing the fastest-growing private companies in the United States. Companies earn a spot by meeting strict eligibility criteria and demonstrating strong revenue growth over a three-year period.

Just 16 months commercial — and over 3500 Nerve Tape® devices have already been implanted.

BioCircuit Technologies continues to be committed to expanding our portfolio with products that reflect our mission to provide simple, precise solutions that enhance surgical capabilities and improve patient care.

We're excited to reach this milestone so early in our journey — and even more excited about what's ahead!

About BioCircuit Technologies

Based in Atlanta, GA, BioCircuit Technologies develops and commercializes medical devices for tissue repair and neuromodulation. Designed for precision, ease-of-use, and reliability, these devices enhance surgical efficiency and therapeutic targeting for improved patient outcomes.

In addition to small business funding from the National Institutes of Health (NINDS SB1NS137879), BioCircuit has attracted private financing, including investment from the GRA Venture Fund, Masters Capital, and Alsora Capital.
