

Product Specialist

Medical Device Sales

Location: Atlanta, GA **Reports to:** Vice President, Sales **Status:** Full-time

About the Company

BioCircuit Technologies is a medical device company developing and commercializing novel, biomaterial-based devices for the surgical repair of nerves and other soft tissues.

Position Summary

As a Product Specialist, you will be a part of our sales team, working with a network of independent medical device distributors across the United States, supporting them with expertise and best practices to drive sales of our nerve repair device, Nerve Tape®. Your responsibilities will require you to work across multiple departments, providing a unique opportunity to draw from and contribute to all areas of our business.

Location

This position can be based at our company headquarters in Atlanta, GA. and you will be required to work from the office on most non-travel days.

Key Job Responsibilities

- Maintain a high level of clinical proficiency pertaining to a medical device designed for nerve repair.
- Plan and deliver compelling sales and product presentations to distributors and healthcare professionals.
- Support a large geography, conducting field visits with external distributor sales teams.
- Manage time to provide maximum exposure and bring results from distributors within the assigned territory.
- Identify and capitalize on growth opportunities within customer accounts.
- Manage expenses efficiently.
- Use a CRM system to keep detailed and up-to-date records for accounts and distributor engagement.
- Build strong working relationships with distributors, key decision-makers, and customers.
- Actively listen to understand customer needs, address objections, and secure commitments.
- Relay market information and lessons learned in the field to the head office.
- Continuously enhance your knowledge and abilities in regards to clinical expertise, technical understanding, product knowledge, and sales techniques.
- Participate in professional development through training, on-the-job learning, and other growth-focused programs.
- Ensure strict adherence to all Company policies, processes and standard operating procedures (SOPs), including those established by the Company and those required by external regulatory authorities.

Qualifications

- A university degree or equivalent higher education is required.
- Previous sales experience; medical device sector is preferred.
- Must be proficient with computers and possess strong written and verbal communication skills.
- Willingness to travel overnight, at least 50%.
- Ability to work independently and as part of a team.

Further Description

BioCircuit Technologies is a growing start-up company, where you will have the opportunity to learn and then effectively communicate technically-advanced, clinically accurate presentations specific to the use of our novel medical device. Your proficiency in this role will drive our distributors to achieve greater results, and will help them, and any healthcare professionals you meet, respect the expertise and organizational health of our Company. As part of a small company, you'll impact and benefit from all facets of our operations, helping to create a healthy, successful medical device company. Your performance in this dynamic work environment will lead to significant potential for continued growth and experience.
